PROFESSIONAL SUMMARY

Monitoring, Evaluation, Accountability, Research and Learning professional with over five years of experience in development, humanitarian response, social protection and applied research. Expertise spans MEAL/MERL systems, mixed-method evaluations, data quality, large-scale MIS, statistical analysis, dashboards, GIS and automated workflows. Converts evidence into clear policy inputs, programme decisions, learning products and stakeholder reports.

WORK HISTORY

RESEARCH AND DOCUMENTATION OFFICER

02/2026 to Current

SSU, GIZ, Dhaka, Bangladesh

- Analyze national social insurance design, implementation and policy implications, including the Employment Injury Scheme.
- Compare international social security models with Bangladesh's demographic and labour-market context.
- Produce evidence syntheses, country case studies, policy briefs and knowledge products for institutional decisions.
- Contribute to National Employment Injury Scheme policy development with government and development partners.

TECHNICAL SPECIALIST - MERL

02/2024 to 12/2025

International Development Enterprises (iDE), Dhaka, Bangladesh

- Designed institutional MERL plans, logical frameworks, monitoring frameworks and KPI revisions aligned with theories of change.
- Evaluated survey data and prepared reports while strengthening large-scale management information systems.
- Built real-time dashboards and automated reports with R Shiny, ggplot2, Plotly and r2d3.
- Facilitated staff training on data quality assurance, Most Significant Change, process tracing, outcome harvesting and AAER.
- Automated KoboToolbox-to-Google Sheets data flows through REST APIs and webhooks.
- Created a web-based asset system and a Python model that mapped project indicators to SDG indicators.

MEAL OFFICER

08/2023 to 01/2024

Danish Refugee Council (DRC), Cox's Bazar, Bangladesh

- Coordinated MEAL support for livelihood, protection and site-management projects across six refugee camps.
- Updated MEAL plans, logical frameworks, IPTTs and Power BI performance dashboards.
- Delivered baseline, endline and post-distribution monitoring studies from tool design through reporting.
- Assessed accountability and programme quality through CHS surveys and routine field monitoring.

DOCTORAL RESEARCHER

02/2022 to 03/2023

Trinity College Dublin (TCD), Dublin, Ireland

- Conducted doctoral research on afforestation using statistical and spatial modelling.
- Developed spatial metrics and applied Diversity-Interactions models to simulated forest data.
- Conducted simulation studies and developed an R package for statistical model comparison.

WORK HISTORY

MEAL OFFICER

05/2021 to 02/2022

Danish Refugee Council (DRC), Cox's Bazar, Bangladesh

- Strengthened MEAL systems for livelihood and WASH projects across four refugee camps.
- Structured logical frameworks, MEAL plans and performance indicator tracking tables.
- Executed mixed-method baseline, endline and post-distribution monitoring studies.
- Measured food security, vulnerability and resilience using FCS and negative coping indicators.

TECHNICAL OFFICER - PROGRAM QUALITY, WASH

12/2020 to 04/2021

BRAC, Cox's Bazar, Bangladesh

- Delivered quality assurance for a UNICEF-funded WASH programme across three refugee camps.
- Drafted hygiene guidance, project proposals and information, education and communication materials.
- Supervised four field facilitators and maintained complaint-response and facility-monitoring systems.
- Planned a KAPB study and produced Python, LaTeX and VBA-enabled Excel reports.

MEAL OFFICER

02/2020 to 11/2020

Action Contre la Faim (ACF), Cox's Bazar, Bangladesh

- Oversaw monitoring for food security, WASH and nutrition projects across five refugee camps.
- Formulated logical frameworks, MEAL plans and tools for quantitative and qualitative assessments.
- Produced dashboards, evaluation reports and facility maps with Tableau and QGIS.
- Managed data collection, cleaning, validation, analysis and reporting with R and Python.

MEAL OFFICER

10/2019 to 02/2020

Shushilan, Cox's Bazar, Bangladesh

- Established data-flow systems and monitoring processes for an IOM-funded WASH project in Camp 12.
- Configured KoboToolbox tools and mapped WASH facilities with QGIS.
- Trained project staff on data collection and quality; prepared monthly, 4W and 5W reports.
- Analyzed programme data in SPSS and represented the organization in coordination meetings.

EDUCATION

Khulna University

Khulna, Bangladesh

MASTER OF SCIENCE, STATISTICS, 01/2020

- Thesis: Factors Affecting Academic Performance of University-Level Students: A Study at Khulna University.
- GPA: CGPA 3.65/4.00

Khulna University

Khulna, Bangladesh

BACHELOR OF SCIENCE, STATISTICS, 01/2018

- Group Project: Factors Affecting Child Mortality in Bangladesh: A Study Based on BDHS 2011 and 2014 Data.
- GPA: CGPA 3.40/4.00

CERTIFICATIONS

- IBM Data Science Certificate - Coursera
- IBM Data Analyst Certificate - Coursera
- Google Project Management Certificate - Coursera
- Google Data Analytics Certificate - Coursera
- Applied Data Science Specialization - Coursera
- Data Science Fundamentals with Python and SQL Specialization - Coursera
- Data Analysis and Visualization Foundations Specialization - Coursera
- Introduction to Data Science Specialization - Coursera

INTERPERSONAL SKILLS

- Stakeholder communication
- Facilitation and training
- Team supervision
- Priority management
- Cross-functional collaboration
- Analytical problem-solving
- Adaptability
- Knowledge sharing

SKILLS

- **Data analysis:** R, Python, SPSS, Stata, MATLAB, GNU Octave and Orange.
 - **Visualization and BI:** Power BI, Tableau, R Shiny, ggplot2, Plotly, r2d3, Matplotlib and D3.js.
 - **Data systems:** KoboToolbox, Excel, Google Sheets, MIS, DHIS2, SQLite, MySQL and MS Access.
 - **GIS:** QGIS, ArcGIS and Leaflet.
 - **Automation and development:** JavaScript, VBA, REST APIs, webhooks, HTML and CSS.
 - **Productivity and design:** Word, PowerPoint, Visio, Project, Photoshop, Illustrator and Inkscape.
-

DECLARATION

I confirm that the information provided in the curriculum vitae is true to the best of my knowledge. Further, the verifiable credentials and detailed information about me are provided in this CV in the form of links or can be accessed using the personal website provided in the introductory page.
